Allen County HamNews is a monthly joint publication of the Fort Wayne Radio Club (P.O. Box 15127, Fort Wayne, IN 46885), the Allen County Amateur Radio Technical Society (P.O. Box 10342, Fort Wayne, IN 46851), and the Fort Wayne DX Association.

Please send any articles, classified ads, or other information to the editor, Ken Helms, AB9ZD, at ab9zd at arrl.net. Please put "For Newsletter" in the subject line. Most text and graphics formats are acceptable. Microsoft Word and JPEG are preferred if separate files are used. For those without computer access, please mail your submission to either of the clubs post office boxes.

The deadline for the each issue is the last day of the preceding month.

Hamsplatter

Fort Wayne Radio Club P.O. Box 15127, Fort Wayne, IN

THE PRESIDENT'S CORNER

Please join us on September 18th at the church for our general meeting. The presentation for the evening will be on the mini SDR (Software Defined Receiver) "dongles" that are now available for very low cost. Jim Boyer, KB9IH, will have some on hand to see and Charles Ward, KC9MUT, will explain some new interesting uses for these, such as Fox Hunting systems and Spectrum Analyzer. The price of these devices is quite low, and the software is free on the web.

Also, since it is September, that means we begin the club election process with nominations. We are looking for some fresh blood here! If you have ever wanted to serve the club and get closer to the operation and planning, now is your chance! It is perfectly OK to self nominate if you would like to throw your name in the running for any of the club positions.

As mentioned in the April Hamsplatter, we also will be showing off the talents of local hams in our Home Brew Contest. This concludes at the September meeting, so whatever you have home brewed over the years, whether is it an antenna system, a tuner, a dummy load, even a transmitter, receiver, or transceiver, bring it out to show off during the break! If you have some photos you can send to me electronically, please do so I can put together a slide show as well.

Remember that the following month's meeting is elections and also the "Best Shack Contest". Please send me pictures of your Ham Radio Cave, so I can put together a presentation and judge the entries. There is a special prize for the most, err...let's just say most challenged shack as well!

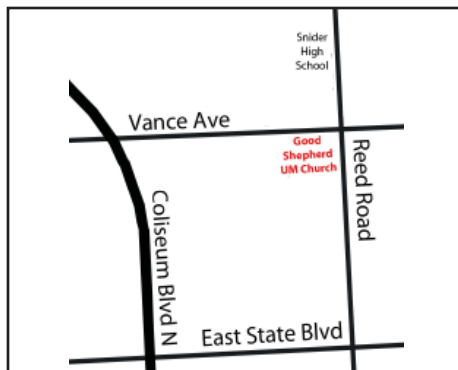

September 18: Jim Boyer, KB9IH and Charles Ward, KC9MUT will discuss mini SDR (Software Defined Receiver) "dongles" that are now available for very low cost.

The BOD and the repeater crew are still working on the details for the proposed High Profile Repeater that could potentially go up at the WLDE radio tower in New Haven. We are a little surprised at the lack of discussion that seems to be not taking place regarding this very ambiguous project. We will do our best to stimulate this conversation, since the new repeater location could have far reaching implications for Amateur Radio Emergency Communications for all of North East Indiana. It will also require a lot of fresh ideas for fund raising to replace depleted club funds if it happens. We are thinking of raffles (rigs; generators; antennas; etc.) and others (lifetime memberships; special QSL card; etc.). Additional help will be needed for the construction and maintenance of the new system and existing machines. Please give this some thought, the club wants guidance!

Don't forget, too, that on September 12th from noon to 8 PM will be the Indiana and Ohio State Parks on the Air event! The club is looking for those willing to help out, man the stations, and maybe work the picnic supper. We are considering Chain O'Lakes or Ouabache parks to activate (or both!). Stay tuned....

Best regards,
Steve Nardin, W9SAN

ACARTS PRESIDENT'S MESSAGE

Well, the summer is winding down (what little there was of one) and Fall is rapidly approaching. There is still time to get those outdoor projects (hint: antennas) done before the snow flies. Speaking of Fall, the Fort Wayne Hamfest is only two and a half months away. Mark your calendars for the weekend of November 14th and 15th for this gala event. Please consider working at the hamfest for a couple of hours. If you did not work at the Hamfest last year and you would like to work this year, please

contact Jim, KB9IH, and let him know what hours Friday evening, Saturday, or Sunday that you would be available. Job assignments will come closer to the Hamfest date, but letting Jim know of your availability will be a big help. If you worked at the Hamfest, you will most likely be contacted and asked whether you want the same job and hours,

73,

Dave Lindquist, W9LKH

President

ACARTS AUGUST BOARD MEETING MINUTES

The meeting was called to order by Dave, W9LKH.

Dave asked if anyone had any ideas or suggestions for the September and October programs.

Dave told the board members about the recent elections of the Indiana Repeater Council and their plans to update their organization and make themselves more responsive to area repeater owners.

Dave stated that Don had updated sev-

eral items on the club website. He added that there were several other things that could be updated, as well as updating the 1996 Members Manual.

Jim, KB9IH, said that he is working with the Coliseum as to what to use for the third meeting room as the Blue Room is no longer in existence.

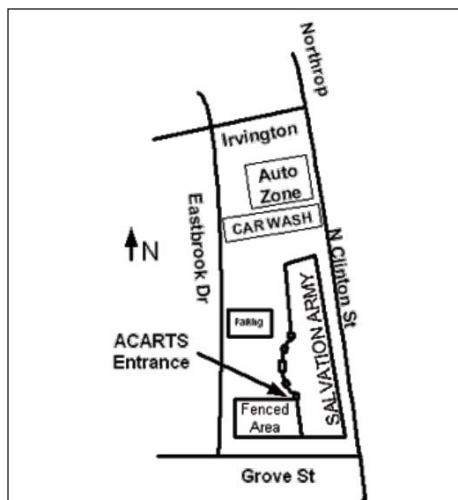

No other business was discussed.

The meeting was adjourned at 8:45 p.m.

September 15: To be announced plus Hamfest planning.

Unless otherwise scheduled, all meetings are held at 7:00 PM at the Salvation Army Center, 2901 N. Clinton Street, Fort Wayne, IN.

INDIANA PARKS ON THE AIR

AND

OHIO STATE PARKS ON THE AIR

SEPTEMBER 12, 2015

First Saturday after the Labor Day holiday is the annual Indiana Parks on the Air (INPOTA) and the Ohio State Parks on the Air (OSPOTA).

The basic rules include:

- Operation from 1600 UTC to 2400 UTC
- Operate SSB only on Amateur Radio Bands 80, 40, 20, 15 and 10 meters
- All contacts must be in the Phone portion of the bands
- Stations may be worked once on each band

For more details, see:

Indiana: <http://inpota.com/>

Ohio: <http://www.ospota.org>

Sponsored by the:

ALLEN COUNTY AMATEUR RADIO TECHNICAL SOCIETY (ACARTS)

Carl Luetzelschwab K9LA

On Saturday July 18 the Lafayette DX Association (LDXA – Lafayette, IN) held an impromptu meeting at lunch time at the Lafayette Brewing Company. My wife Vicky AE9YL and I attended, along with LDXA members Dave N9FN, Tim N9LF and David K9FN. I card-checked two DXCC applications at the “meeting”.

Why was this an impromptu meeting and why were Vicky and I there? The best answer is the number 765. That’s the 2-8-4 steam locomotive restored into operational condition by the Fort Wayne Railroad Historical Society. On Saturday July 18 (and again on Sunday July 19), the Historical Society offered roundtrips to Lafayette.

Vicky and I splurged and bought tickets for a dome car (there were two dome cars used on this trip). We had a great view (we were in the front seats of the dome), sitting above the rest of the train. There were 15 passenger cars being pulled, with approximately 700 passengers on board. Our dome car was towards the back of the train.

Three things stood out in my mind. First, I was surprised by how much straight track there was between Fort Wayne and Lafayette. Sure, there were some curves, but most was straight as an arrow.

Second, the ride was very smooth. I grew up in northwest Indiana, and vividly remember the clickety-clack of the old South Shore commuter train that ran between South Bend and Chicago. When I asked the porter in our car about this, he said nowadays the rails are welded together, not joined together with plates.

Third, steam locomotives attract attention. At every road crossing (and I mean every road crossing – even the ones out in the middle of nowhere), there were cars parked with people watching us pass by. Many had cameras on tripods with telephoto lenses. We saw many drones (quad copters), too. And grandmas and grandpas were there with the grandkids – most of the time the kids were holding their hands over their ears because of the 765’s whistle. Being in a dome car gave us a great view of all of this.

At every overpass that we went under, the same thing happened – people were lined up on the bridge shooting pictures and waving. And we had an entourage (these were not railroad people – these were railroad aficionados). With US 24 and US 25

AN IMPROMPTU MEETING OF THE LAFAYETTE DX ASSOCIATION

Our entourage and people on the bridge (photo by K9LA)

View from our seats in the dome car at a road crossing (photo by K9LA)

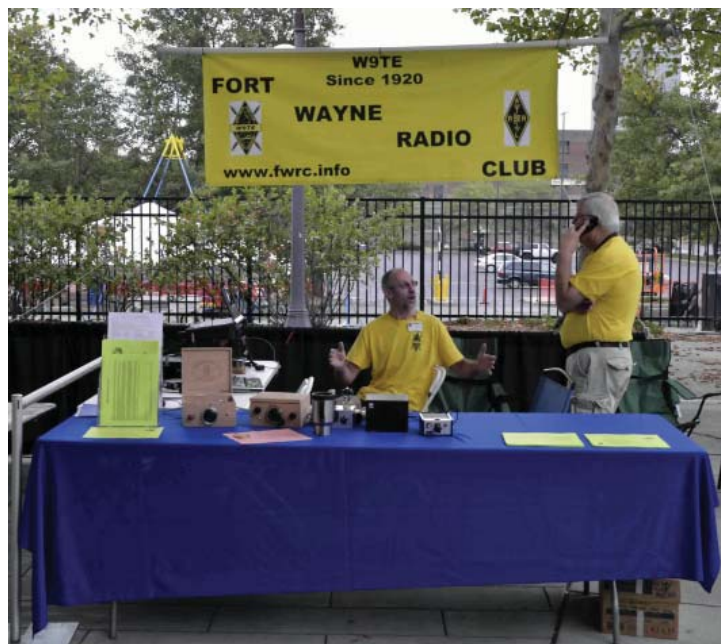

Our train passing Buck Creek, IN (photo by N9LF)

paralleling the tracks in many spots, we'd see upwards of twenty cars pacing us and taking pictures – we'd see the same cars multiple times when US 24 or US 25 was again close to the tracks.

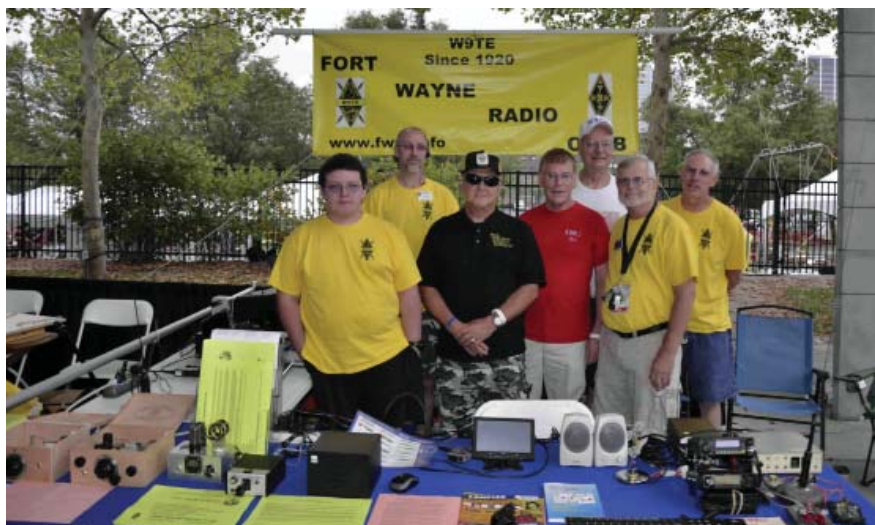

Most of the other passengers had lunch at the stop in the Norfolk Southern yard on the east side of Lafayette. Dave N9FN and his girlfriend Sylvia picked us up there and the LDXA meeting then convened in downtown Lafayette. I did operate on 2m as K9LA/mobile on the Wabash Cannonball – so radio was used on this trip!

THE FOXHUNT CHRONICLES

The August foxhunt occurred on 2 August on a beautiful, sunny, non-monsoony (for a change) day. Two hunter teams were available for this contest. The first team consisted of Jim & Annie Pliett, K9OMA & KA9YYI, plus Carole & Al Burke, WB9's RUS & SSE. The second team consisted of Charles Ward, KC9MUT, Fred Gengnagel, KC9EZP and Robert Dean, KC9UHU. Both teams awaited the 146.430 MHz emissions from the fox at their starting point of Cobin Memorial Park.

Jim & Kim Machamer, KB9's DOS & DOT served as the fox. Their high power fox consisted of a mobile rig driving a yagi, and they were located where the southern segment of Young Rd. abuts I-469. They placed the micro-fox up against the chain link fence that runs parallel to the west-bound lane of I469 where the northern segment of Young Rd. abuts I-469. I-469 bisects Young Rd, and there is no overpass or underpass that allows one to get from the north to the south segment of (the bisected) Young Rd. directly. In other words Jim & Kim were sitting in their van on Young Rd. just to the south of I-469 and could look across I-469 to the southern segment of Young Rd., and to where the microfox was located. Sorta sneaky.

The microfox itself was one of the microprocessor controlled units that emits about 20 milli-watts of cw every 2½ minutes. It was well camouflaged with some pine tree branches wrapped around it, and turned out to be very hard to see. More on that later.

The fox came up at the appointed time (13:30) and both hunter teams immediately heard it bleeping out to the north-northeast. So off we went. Pretty soon the two hunting teams became separated, and ours proceeded north up Maplecrest until we hit Rothman Rd. where we turned east for a bit, and then turned back north again on Young Rd, following our DF bearings. At the terminus of Young Rd. on the south side of I-469, about thirty minutes into the hunt, we found Jim & Kim ensconced in their van doing their high power fox thing. So we got our hand-held gear out and started hunting on foot. The microfox's fundamental signal was quite strong, but I heard nothing on the third harmonic. We could look across I-469 and see where the bisected Young Rd. started again. Pretty soon it became obvious to us that those tricky Machamer's had stashed the microfox across the Interstate. So we got back in Jim's vehicle and backtracked to Maplec-

rest, crossed under I-469 and proceeded east on Flutter Rd. That's where we saw the Ward, Gengnagel, Dean team's vehicle also ripping east on Flutter. We said "Oh shucks" (yah, really), "they beat us again". But they didn't turn south down Young Rd. but kept going east. Since we knew the microfox just about had to be on the north section of Young Rd., and close to I-469, we turned down Young Rd. and stopped where it ran into I-469. Once we got back on foot I started hearing the third harmonic which pointed directly at the fence that defines the right-of-way of the interstate. The third harmonic led me directly to the microfox. I knew it had to be there in the weeds up against the fence, but I couldn't see it because of the camouflage job Jim & Kim did on the thing.

But at forty-one minutes into the hunt, after a little thrashing around in the undergrowth I finally found the thing. (Thank goodness we do not hunt in rattle-snake or Gila-Monster territory).

Now, not to be out-done by Jim & Kim's craftiness, and since we realized that Charles and crew were not yet sure on which side of I-469 the microfox was located, we drove back to Jim & Kim's location and got on foot again "hunting" for the fox. Sure enough, Charles and crew showed up and proceeded hunting on foot too. But after a bit they too realized that the microfox was across the interstate and proceeded back across it, down Young Rd., and eventually found the microfox about sixty-two minutes into the

2015 Foxhunt Schedule

The following is the planned Foxhunt schedule for 2015. All foxhunts start at 1:30 PM on Sunday. The starting location will be the River Greenway Trailhead (Cobin Memorial Park) near the Lakeside Golf Course:

September 13
October 4
November 1

hunt.

Following the contest everyone buzzed over to the Dairy Queen on Maplecrest and Rothman Rd. and partook of their offerings. It was goooood.

Given the Pliett-Burke team won this one, they will serve as the fox for the September hunt which is scheduled to occur on Sunday, 13 September. The fox will radiate on 146.160 MHz with the intercom on 146.910 MHz.

The points accrued for this contest, and the points accrued year-to-date are:

CALL	MAY SCORE	YEAR-TO-DATE
K9OMA	2	20.66
KA9YYI	2	18.66
WB9RUS	2	19.66
WB9SSE	3 First to Find	20.66
W9SAN	0	7
W9LAN	0	7
ALEX	0	4
KB9DOS	6 (Fox)	12
KB9DOT	6 (Fox)	13
KC9MUT	1	29.25
KC9UHU	1	27.25
KC9EZP	1	17.25
KC9UOQ	0	9.5
KK4QXC	0	7.5

Hope to see you in September. Why not give it a try?

Respectively submitted,

Al Burke, WB9SSE

Say Again?

"There are three kinds of men: The ones that learn by reading. The few who learn by observation. The rest of them have to pee on the electric fence."

Will Rogers
